Fax: (701) 252-4529
info@trucktarpstore.com

NOTE: Accurate PHYSICAL measurements are ESSENTIAL for proper tarp fit. Always use actual tape measurements. NEVER RELY ON UNIVERSAL BOX SIZES.

IMPORTANT: Illustration shows measuring at top of angled extensions - or - If no extensions, measuring at top of box.

NOTE: If ordering flat or top mount end caps, make sure box is flat across top. Below is an example of a box with uneven angle across top from high side to low side. Flat or top mount caps will not fit this box. Order side mount caps for these boxes.
